Design Range

Garador Design Range doors are a truly modern range of up-and-over doors. The series 100 design range doors are built from four horizontal skins, whilst series 200 doors are built from three vertical skins. Both series feature a minimalistic door panel and have a wide range of stylish designs available.

Many of the design range doors have been specifically created to match the Garador FrontGuard Entrance Door Range.

The colour range

These doors are available in the same colour range as standard steel doors shown on page 3, plus the exclusive Titan Metallic.

Stainless Steel Elements

Stainless steel elements on Garador design range doors are manufactured from high grade steel and feature a fine brushed finish.

Perfectly matched handle

Supplied as standard and especially for Design range doors.

Guardian Range

The UK's first range of Up & Over garage door with Secured by Design accreditation. The new Guardian range has been engineered to offer even greater security. We offer two styles: Horizon and Carlton. Available with canopy or retractable gearing options and in any one of seven standard colours. We also offer a range of FrontGuard front entrance doors, which are Secured by Design accredited to complete the package.

Carlton

Horizon

Secured by Design is an association focusing on the design of more secure homes and commercial properties. Secured by Design is owned by the ACPO (Association of Chief Police Officers) and awards the Secured by Design status to products that pass their extensive testing procedures.

Lock Body Protection

A reinforcing plate has been added to the lock body to prevent attacks against the locking mechanism.

Anti-snap Cylinder

Features an anti-snap cylinder with a sacrificial front to prevent entry even after an attack.

Improved Lock Security

Additional steel plates have been added to the base corners of the door to protect the bottom locking plates.

High Security Bracing

There are now eight door braces rather than two at the back of the door for extra protection.

The colour range

	Moss Green (based on RAL 6005)
	Ruby Red (based on RAL 3003)

PVC Range

This UV-fast low gloss white finish looks great and offers fantastic impact and dent resistance. Ideal for our hectic environment. Built around the Garador box section chassis this ultra crisp fully finished PVC plastic door panel offers you engineering excellence with a material to perfectly match your PVC doors and windows.

Sherborne

Chatsworth

Low maintenance and long lasting

Our Sherborne and Chatsworth PVC up & over garage doors have been designed to provide a low maintenance and long lasting solution for any home.

UV-fast low gloss white PVC plastic

Constructed from a UV-fast low-gloss plastic, these doors offer an attractive and durable solution for any garage. They also provide a sturdy impact resistant panel ready to cope with life's little knocks.

Non-rusting PVC panel is ideal for coastal properties

Both these doors are ideal for coastal properties, as the sturdy and non-rusting PVC panel will withstand even the toughest weather conditions.

Matches existing white PVC doors and windows

The surface of the door panel is strong, crisp and elegant with its vacuum formed panels offering an attractive and very desirable finish and has been designed to match existing PVC doors and windows on your home.

Side-hinged doors

Georgian

Beaumont

Cathedral

Carlton

Beaumont with windows

Side-hinged doors combine robust and reliable performance with simple personal access. These doors are fitted with a lever handle as standard to provide easy access at all times. For added security the option of an outside knob is available. With this option a key is always required to open the door.

Alternatively, most side-hinged doors are also available in a one third / two thirds configuration, as shown on the Vertical Cedar design.

Aluminium roller doors

The GaraRoll is an aluminium insulated lathed roller garage door which is our latest addition to the Garador range of products. Its engineering excellence and quality craftsmanship let this door stand out from other products offered in today's marketplace.

Limited
10 year Warranty

Space saving construction
in excellent quality.

GaraRoll roller garage doors come with a door operator as standard. Both door and operator feature the innovative engineering details you have come to expect. The smooth aluminium profile laths are foam-filled, providing thermal insulation, stability and a smooth and quiet door action.

GaraRoll doors are versatile and blend in with almost any homes architecture. Choose from our range of beautiful colours or go for the look of timber with our Decograin finishes.

The colour range

	Moss Green (based on RAL 6005)
	Ruby Red (based on RAL 3003)
	Jet Black (based on RAL 9005)
	Terra Brown (based on RAL 8028)
	Steel Blue (based on RAL 5011)
	Anthracite Grey (based on RAL 7016)
	Light Grey (based on RAL 7035)
	White Aluminium (based on RAL 9006)

Printed colour samples are as accurate as printing techniques allow.

Other surface finishes

	Golden Oak
	Rosewood

Window option

Use the daylight in your garage and add a window for an individual design.

Steel Entrance Doors

Garador FrontGuard doors are amongst the best front doors available on the market today. The high quality of these doors becomes apparent as soon as you operate one of these doors for the first time. The excellence in production and the use of high grade materials will ensure fantastic thermal insulation, high security and optimal functionality for many years. Available in a range of designs and colours, there is certainly a door for every property.

Our glazed FrontGuard entrance doors feature high-quality, insulated laminated safety glass. Carefully chosen, the glass design compliments the design of the door. When it comes to the side element or transom light, you may choose from various glass designs.
